### Maximize your Profit with Mutoh Intelligent Interweaving (i<sup>2</sup>) Print Technology

Mutoh i<sup>2</sup> technology will deliver you an unprecedented level of user comfort, allowing you to effortlessly deliver the right quality at the lowest cost possible. Per printer incorporating Mutoh i<sup>2</sup> technology, a “guided printer setup” is available, allowing you to easily select the most suitable print mode and moreover to predict how long printing will take.

No more over-specified print jobs, taking longer and costing more than necessary. No more under-specified print jobs, leading to inferior quality with the risk of repeat work or lost business. Mutoh’s “guided printer setup” will allow you to continuously deliver fit for purpose print quality.

You can find out more on this amazing technology at [www.mutoh.eu/interweaving](http://www.mutoh.eu/interweaving).
